

NEHA SHETTY

Email: nehashetty175@gmail.com | **Github :** <https://github.com/nehashetty175-hue> | **Phone:** 9561861649

Portfolio: <https://nehashetty175-hue.github.io/PortFolio-NehaShetty/> |

PROFESSIONAL SUMMARY

Detail-oriented **Data Analyst Fresher** with strong hands-on experience in **SQL, Python, Power BI, and Excel**, specializing in **data cleaning, exploratory data analysis (EDA), KPI reporting, and dashboard creation**. Proven ability to analyze structured datasets, derive actionable insights, and present findings through visualizations. Seeking an entry-level **Data Analyst / Business Analyst** role to contribute to data driven decision making.

TECHNICAL SKILLS

Data Analysis & BI

- Data Cleaning, Data Validation, Exploratory Data Analysis (EDA)
- KPI Reporting, Business Insights, Dashboard Development
- Predictive Modeling (Classification & Regression)

Programming & Tools

- **Python:** Pandas, NumPy, Matplotlib, Seaborn
 - **SQL:** Joins, Subqueries, Aggregations, Group By, Case Statements
 - **Power BI:** Interactive Dashboards, Data Modeling (Basic DAX)
 - **MS Excel:** Pivot Tables, VLOOKUP/XLOOKUP, Charts, Data Analysis
-

PROJECTS

Ride Demand Classification | Machine Learning

GitHub Link- <https://github.com/nehashetty175-hue/Ride-Demand-Classification->

- Developed a machine learning classification model to predict ride demand categories based on customer, location, and time-based features.
- Performed data preprocessing, feature engineering, missing value treatment, and exploratory data analysis (EDA) to improve model performance.
- Trained and evaluated classification algorithms using metrics such as Accuracy, Precision, Recall, and F1-Score.
- Identified key factors influencing ride demand and generated actionable insights for resource allocation and demand forecasting.

Sales Customer Analytics | Data Analytics

GitHub Link - <https://github.com/nehashetty175-hue/Sales-Customer-Analytics-Project>

- Conducted exploratory data analysis (EDA) on customer purchasing behaviour and sales transactions to identify business trends.
- Analyzed customer segments, product performance, and revenue patterns using Python, Pandas, and data visualization techniques.
- Developed key business metrics and dashboards to monitor sales performance, customer retention, and profitability.
- Generated actionable insights to support strategic decision-making and improve customer engagement.

Amazon Pride Video Analysis | Data Visualization and Analytics

GitHub Link - <https://github.com/nehashetty175-hue/Amazon-Prime-Video-Project>

- Performed comprehensive analysis of Amazon Prime Video content to identify trends across genres, ratings, countries, and release years.
- Cleaned and transformed large datasets using Python and Pandas for effective exploratory data analysis.
- Created interactive visualizations and dashboards to uncover content distribution patterns and audience preferences.
- Provided data-driven insights into content growth, regional availability, and platform catalog trends..

Cloud Server Resource Consumption Analysis | Data Analytics

GitHub Link - <https://github.com/nehashetty175-hue/Cloud-Server-Resource-Consumption>

- Analyzed cloud server performance data including CPU utilization, memory usage, network traffic, and system load metrics.
 - Conducted exploratory data analysis to identify resource consumption patterns, peak usage periods, and performance bottlenecks.
 - Developed visualizations and KPI reports to monitor server efficiency and optimize infrastructure utilization.
 - Generated actionable recommendations for capacity planning, workload balancing, and cost optimization.
-

EDUCATION

Bachelor of Computer Application (BCA)

- April 2025

S.N.D.T Women's University

R.S.M.D.P College, Karve Road, Pune

Percentage: 66.80

Higher Secondary Certificate (H.S.C.)

- March 2022

S.N.D.T Kanyashala, Pune

Percentage: 64.17

Secondary School Certificate (S.S.C.)

- March 2020

P. Jog English Medium School

Percentage: 67.60

CERTIFICATIONS

- **Data Analytics** – The Coders Orbit, Pune (*October 2025 – Present*)
